

I believe telemarketing is an invasion of my privacy. If I am interested in a service or product, I WILL MAKE THE CALL. I do still get telemarketing calls, from who, I don't know since I hang up on them. I am still angered that I get calls, whether it be from a company I'm dealing with or have dealt with in the past. If any changes are to be made to the NJ Do Not Call list, it should be toughened. I have an unlisted number for a reason; DON'T CALL!!!
